**Face ID Compatibility:** Face ID is available with the iPhone X model, which will not have Touch ID capability. Our understanding is that Mobiliti apps and existing Touch ID functionality will continue to work on the iPhone. If the user has set up Face ID correctly, Mobiliti app authentication will be able to use Face ID instead of Touch ID. If the user does not set up Face ID and tries to use Touch ID in the Mobiliti app, incorrect prompts may be displayed.
